

WEIGHT (DRY)

28.6 kg (63 lb)

FILTER TUBE CAPACITY

10 in. filter stack tube: 15 filters*

15 in. filter stack tube: 25 filters*

**Average number. Actual number depends on filter body dimensions.*

WETTED MATERIALS

PTFE

EXTERNAL POWER SUPPLY

Input: 100-240 V~, 50-60 Hz, 1.5 A max

Output: 24 VDC, 3.75 A, 90 W

DIMENSIONS

Height: 38.1 cm (15.0 in.)

Height with 10 in. filter stack tubes: 54.6 cm (21.5 in.)

Height with 15 in. filter stack tubes: 67.3 cm (26.5 in.)

Width: 48.9 cm (19.25 in.)

Depth: 43.2 cm (17.0 in.)

FILTER STANDARDS AND REQUIREMENTS

In-line syringe filters, ≥0.2 μm
(automation compatible and non-automation compatible)

The Vision® AutoFilter™ Changer is designed to accommodate most 25 mm industry-standard syringe filters. Because of the variation in design among filter manufacturers, filters should be validated for suitable use and performance per customer SOP and protocol.
